TIMELINE

Founder, Oktavi.de, 02.21-01.23

Developing an sharing E-commerce for musical instruments. As the strategic founder, I developed a marketing plan, a funding model, our digital processes, and coded the front-end as well as the back-end of our online presence. My brother handled the operational side. We reached profitability after just 12 month. I will gradually transfer my shares to him starting Jan. 2023, since he will take over the family-run music store this year.

Volunteer, Berliner Stadtmision, 10.19-10.21

Regular work in the soup kitchen and distribution of donated items at Lehrter Straße/Hbf.

Projectengineer, Leipa, Berlin, 03.19-04.22

I worked tête-à-tête with the company management on digitization projects and process optimization in the business development department. My key successes were the completion of a faltering SAP rollout as project leader in addition to the optimizing of the existing YMS, which achieved significant automation effects and efficiency enhancements.

Volunteer, #UnterkunftUkraine, 03.21-10.21

Short-term host of war fugitives.

Interreg Project 21, Uni Greifswald, 09.20-03.21

Company supervisor of LEIPA for student projects on the topic of business intelligence at the Schwedt/O. production

MSc Ind. Eng. (1, 7), TU Berlin, 03.17-02.19

Graduate with specialization in supply chain analytics and data analytics. Certifications in "Information and Automation Engineering", as well as "Business Intelligence and Big Data". Master thesis in cooperation with LEIPA about "dynamic time window management".

Working student, Sanofi, 03.17-01.19

Research and executive summaries of scientific publications, managerial assistance, and processing of regulatory inquiries.

BSc Ind. Eng. (2, 4), TU Cottbus, 10.13-02.16

Diploma in the specialization of production engineering. Bachelor thesis on "Quantitative easing as a monetary policy tool of central banks in the financial crisis of 2008/09".

Student counsel, TU Cottbus, 04.14-10.

Member of the elected student representative body.

Highschool (2,7), Schillerschule Frankfurt, 06.12

Advanced courses in physics, politics and economics.

Exchange Year, AFS, USA, 09.09-08.10

Interesting stay with a mormon family, student of a large american high school, contributing deep insights on american society.
